This study aims to determine the influence of price, quality, and promotion on purchase decision of dangdut song VCD albumn. This research was conducted in July 2019 in Mekar Pelita Village, District Sayan, Melawi Regency, West Kalimantan Province. The population of this research were the people of Mekar Pelita Village who had ever bought a dangdut song VCD album and who had not bought any dangdut song VCD album, but had ever seen and heard a dangdut song VCD album. The number of the sample was 97 people who were selected with a *purposive sampling* technique method. Data were collected by distributing a questionnaire to 97 respondents, conducting a survey and a literature review. The data analysis technique used was a multiple linear regression. The conclusion of this study was that (1) partially price had no influence on the purchase decision (2) quality influenced partially the purchase decision (3) promotion influenced partially the purchase decision, and (4) simultaneously price, quality and promotion influenced the purchase decision.
