## ABSTRAK

Skripsi ini berjudul "TANGGAPAN MAHASISWA PROGRAM STUDI PENDIDIKAN AGAMA KATOLIK UNIVERSITAS SANATA DHARMA YOGYAKARTA TERHADAP PERAYAAN EKARISTI KAMPUS". Judul ini dipilih karena menurut pengamatan penulis cukup banyak mahasiswa Program Studi Pendidikan Agama Katolik seringkali memandang Ekaristi sebagai rutinitas yang perlu dilakukan di kampus. Akibatnya, mereka datang ke kapel tanpa mempersiapkan apapun baik hati, pikiran maupun fisiknya sehingga mereka tidak akan mendapatkan manfaat apapun juga. Ekaristi merupakan puncak hidup Kristiani. Artinya, Tuhan sungguh-sungguh hadir di tengah umat sehingga mereka dapat mengalami cinta-Nya yang amat besar. Tujuan penulisan skripsi ini adalah memberikan sumbangan pemikiran untuk membantu mahamami mahasiswa memiliki pemahaman yang benar mengenai perayaan Ekaristi kampus dan meningkatkan tanggapan mahasiswa terhadap perayaan Ekaristi Kampus. Dengan mengikuti perayaan Ekaristi Kampus secara teratur diharapkan mereka dapat menghayatinya dalam hidup mereka sehari-hari. Penulisan skripsi ini didasarkan pada studi pustaka dan penelitian secara langsung di lapangan. Sumber pustaka yang penulis gunakan bersumber dari dokumen-dokumen Gereja dan pendapat para ahli. Penelitan lapangan penulis lakukan dengan melakukan wawancara teerhadap enam belas mahasiswa. Pemilihan responden berdasarkan lamanya studi, keterlibatan mereka secara aktif di kampus, kepribadian, serta status mereka sebagai religius atau non-religius, yang penulis sepakati bersama ketua Himpunan Mahasiswa Kateketik. Hasil penelitian menunjukkan bahwa Ekaristi kampus memiliki peran penting bagi hidup beriman mahasiswa. Dalam waktu yang bersamaan, hasil penelitian juga menunjukkan bahwa 40% dari mereka kurang terlibat dalam perayaan Ekaristi tersebut. Penulis mengusulkan pelaksanaan kegiatan rekoleksi untuk membantu mahasiswa sebagai calon guru Agama dan katekis agar mereka semakin memahami arti perayaan Ekaristi dan terlibat secara aktif dalam perayaan tersebut, serta menghayatinya dalam hidup sehari-hari.

## ABSTRACT

This undergraduate thesis is entitled "RESPONSES OF STUDENTS OF CATHOLIC RELIGIOUS EDUCATION PROGRAM, THE UNIVERSITY OF SANATA DHARMA, YOGYAKARTA, TO CAMPUS **EUCHARITIC CELEBRATIONS.**" This title was selected because the writer observes that many students often view the campus Eucharist celebrations as routine activities. This kind of understanding makes many students go the chapel without any preparation. As a result, they don't benefit anything from the campus Eucharistic celebrations. The Eucharist is the pinnacle of Christian life; that is, the Lord is truly present among the people that they can experience His great love. This undergraduate thesis is written to offer ideas to help the students understand the meaning of the campus Eucharistic celebrations and encourage them to participate actively in the celebrations. By participating in the campus Eucharistic celebrations regularly it is expected that they will live out the celebrations in their daily lives. This undergraduate thesis is based on literature study on Church's documents and experts' opinions as well as field survey by interviewing sixteen students as respondents. The respondents were selected based on their length of study, active involment on campus, personality, and their status as religious or non-religious. This selection was agreed upon by the chairperson of the Catechetical Students Association. The findings of the field survey show that the Eucharist plays an important role in the faith of the students. At the same time, the findings also show that fourty percents of the respondents are not actively participating in the campus Eucharistic celebraations. The writer proposes a day of recollection to help the students as candidates for religious educators and catechists understand the meaning of the campus Eucharistic celebrations, participate actively in the celebrations, and live them out in their daily lives.
