

ABSTRAK

Penelitian ini bertujuan mengetahui kebutuhan peserta didik SMP Katolik di kota Yogyakarta untuk pengembangan media pembelajaran Pendidikan Agama Katolik dan Budi Pekerti berbasis aplikasi Android. Jenis penelitian ini adalah kuantitatif deskriptif dengan desain penelitian *survey*. Teknik pengumpulan data yang digunakan adalah penyebaran kuesioner kepada peserta didik dan wawancara dengan guru Pendidikan Agama Katolik dan Budi Pekerti. Penelitian ini berlangsung di 5 SMP Swasta Katolik di kota Yogyakarta, yaitu Kanisius Gayam, Pangudi Luhur, Johannes Bosco, Stella Duce 2 dan Santa Maria Immaculata Marsudirini. Sampel penelitian berjumlah 387 responden dari kelas VII, VIII dan IX dan setiap tingkat diambil satu kelas dari masing-masing sekolah yang diteliti. Hasil dari penelitian menunjukkan bahwa 63 % (244) responden menganggap media pembelajaran berbasis aplikasi Android “sangat membutuhkan” dan berdasarkan hasil analisis statistik, nilai *mean* mencapai 37,14. Berdasarkan hasil wawancara dengan guru Pendidikan Agama Katolik dan Budi Pekerti, media pembelajaran memberikan manfaat dalam proses pembelajaran, yaitu membuat pembelajaran menjadi menarik dan menumbuhkan motivasi belajar peserta didik. Selain itu, media pembelajaran yang digunakan dalam proses pembelajaran perlu disesuaikan dengan materi pembelajaran dan kebutuhan peserta didik. Melalui penelitian ini, diharapkan ada pihak-pihak yang menindaklanjuti pembuatan media pembelajaran berbasis aplikasi Android untuk Pendidikan Agama Katolik dan Budi Pekerti tingkat Sekolah Menengah Pertama.

Kata Kunci : Kebutuhan Peserta Didik , Media Pembelajaran, Android, Pendidikan Agama Katolik dan Budi Pekerti.

ABSTRACT

This study aims to determine the learner needs of Catholic Private Junior High School in the city of Yogyakarta for developing instructional media of the Catholic Religions and Character Education based on the Android application. This research is a descriptive quantitative and its design is a survey research. Data gathering techniques are questionnaire for the students and interview with the Catholic Religious and Character Education teachers. This research took place in 5 Catholic Private Junior High Schools in the city of Yogyakarta, namely Kanisius Gayam, Pangudi Luhur, Johannes Bosco, Stella Duce 2 and Santa Maria Immaculata Marsudirini. The sample size is 387 respondents from the level of VII, VIII and IX and from each level in the target school was taken one class. The results of the study showed that 63 % (244) respondents consider that instructional media based on Android applications is "strongly needed" and based on statistical analysis, the mean value is 37.14. Based on the results of interview with the Catholic Religious and Character Education teachers the instructional media benefit the learning process, namely making the learning interesting and improving the learning motivation of the learner. In addition the instructional media used in the learning is designed through taking the learning material and the learners' needs into account. Through this research, it is expected that there will be parties who develop the instructional media based on Android applications for Catholic Religious Education and Character Building at the Junior High School.

Keywords: Learners' Needs, Instructional Media, Android, Catholic Religious and Character Education.
