The purposes of this research are to know whether: 1) the bank location effects the debtors loyalty, 2) the bank services effect the debtors loyalty, 3) the bank interest rates effect the debtors loyalty.

This research was done on September 2004 at PT BPR Shinta Daya Kalasan. The population in this research was all 1,000 debtors of PT BPR Shinta Daya Kalasan, while the sample was 100 debtors which were taken by the *Accidental Sampling Technique*. The data collecting was done using questionnaire and interview. The data analysis used is *Chi Square* test with 5% level of significance.

The research results show that: 1) the bank location effects the debtors loyalty ( $\chi^2_{\text{count}} = 12,641 > \chi^2_{\text{table}} = 3,841$  with high relation degree that is 0,474),
