ABSTRAK

Ayutyanti, Irene Dyah. 2023. Hubungan antara friend perceived social support (FPSS) dengan honesty-accuracy disclosure (HAD) pada emerging adulthood pengguna second account di instagram. *Skripsi.* Yogyakarta: Psikologi, Fakultas Psikologi, Universitas Sanata Dharma.

Penelitian ini bertujuan untuk mengetahui hubungan antara *Friend Perceived Social Support* (FPSS) dan *Honesty-Accuracy Disclosure* (HAD) pada *emerging adulthood* pengguna *second account* di Instagram. Partisipan dalam penelitian ini sebanyak 307 partisipan yang terdiri dari 264 orang perempuan dan 43 orang laki-laki berusia 18 – 29 tahun yang memiliki *second account* di Instagram. Data yang diperoleh menggunakan survei *online* dengan skala *friend perceived social support* dan skala *honesty-accuracy disclosure*. Koefisien reliabilitas skala *friend perceived social support* sebesar 0,878 dan pada skala *honesty-accuracy disclosure* sebesar 0,852. Teknis analisis data yang digunakan pada penelitian ini adalah uji korelasi *Spearman's rho* karena data tidak terdistribusi secara normal. Hasil uji korelasi menunjukkan adanya hubungan positif dan signifikan antara *friend perceived social support* dan *honesty-accuracy disclosure* pada *emerging adulthood* pengguna *second account* di Instagram ($r = 0,491$ dan $p = 0,000$).

Kata kunci: *emerging adulthood, friend perceived social support, honesty-accuracy disclosure,* Instagram, *second account*.

ABSTRACT

Ayutyanti, Irene Dyah. 2023. Relationship between friend perceived social support (FPSS) and honesty-accuracy disclosure (HAD) on emerging adulthood second account users on instagram. *Thesis.* Yogyakarta: Psychology, Faculty of Psychology, Sanata Dharma University.

This study aims to determine the relationship between Friend Perceived Social Support (FPSS) and Honesty-Accuracy Disclosure (HAD) in emerging adults who use second accounts on Instagram. Participants in this study were 307 participants consisting of 264 women and 43 men aged 18 – 29 years who had second account on Instagram. The data was obtained using an online survey with a friend perceived social support scale and an honesty-accuracy disclosure scale. The reliability coefficient on the friend perceived social support scale was 0.878 and on the honesty-accuracy disclosure scale was 0.852. The data analysis technique used in this study was the Spearman's rho correlation test because the data were not normally distributed. The results of the correlation test showed that there was a positive and significant relationship between friend perceived social support and honesty-accuracy disclosure in emerging adulthood second account users on Instagram (r = 0.491 and p = 0.000).

Key words: *emerging adulthood, friend perceived social support, honesty-accuracy disclosure, , Instagram, second account.*
